I think the lists may be printed, although I do not see that they serve much useful purpose inasmuch as the Salut lists are sufficient for all practical purpose. It seems to be desirable that there should be a permanent lists of such villages in the maintained in every Police Stations and the changes noted from time to time.

The Bangalore Dy Comm's suggestion to introduce the rules into all villages within a radius of 5 miles ~~of~~ from Bangalore requires orders, the rule at present being that the villages to benefit by these rules shd contain not less than 100 houses.

This may be sanctioned on the strength of Bangalore precedent.

But S. of the Rules show that the Dy C= is competent to introduce these rules without reference to Govt in any case: & the order of Govt d. 28.9.99 authorising intron to all villages of 100 houses & above seems to have been unnecessary. In fact, I know that the rules had been introduced into many villages before the receipt of this order.

If this view is correct, it would save unnecessary refce

Sir,

With reference (68) proceedings of Government No. 8255-62 / L.7.86-97 dated 17th January 1899, calling for lists of places other than municipal towns, where the rules framed under village sanitation Regulation No I of 1898 can, with advantage be introduced, with due regard to the esclent of funds and the agency available I have the honor to submit herewith extract of resolution passed at the meeting of the district Fund Board held on the 29th ultimo; and to solicit that Government may be pleased to pass early orders to make over the Kandayam of backyards etc in villages to District Funds for being utilized for purposes of sanitation of rural parts

2. I beg to add that the funds at the disposal of this Local Fund circle are insufficient to meet the additional expenditure that has to be incurred from year to year for improving the sanitations of villages. They are barely sufficient to bear the ordinary expenses now incurred and met from those funds.

funds. The Government have moreover declined to sanction any grant from the Local Funds, Kendra for this purpose, as it is said to be under contemplation of Government to utilize this fund for the construction of bridges on Local Fund Roads in the Province. I therefore beg to recommend that, in order to ensure better sanitation of villages the prayer of the Board may be granted.

Sir,

I have the honor to forward herewith, a list of villages situated within a radius of 5 miles from Bangalore, received from the Amildar of the Bangalore Taluk, and to state that it is very desirable to introduce the village sanitation rules into all these villages though the number of houses in many of them is less than the minimum of 100 prescribed in Government Order No. 4319-28 L. 786-97 dated the 28th September 1898.

2. Bangalore being a Sanitarium and the most important trade centre in the Province, as well as the seat of a British Garrison, it is very essential to

introduce the above rules into all these villages, as by improving their sanitation and keeping them clean and in good condition, the chances of infection in them will be minimised, and Bangalore would be preserved from the introduction of Epidemic diseases to which it might ~~otherwise~~ become liable.

3. I therefore solicit sanction for the introduction of the Sanitary Rules to all villages within 5 miles' radius of Bangalore irrespective of the number of houses in them.
